SKILLS SUMMARY

- **Languages:** Java, JavaScript, HTML, CSS
- **Frameworks & Libraries:** Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Spring Cloud, Spring AOP, Hibernate, React, jQuery
- **Messaging & Streaming:** Apache Kafka
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Cloud & DevOps:** AWS, Maven, Git, Docker, Kubernetes
- **Architecture & Concepts:** Microservices, Object-Oriented Programming (OOP), Design Patterns, SOLID Principles, Data Structures & Algorithms

EXPERIENCE

Daxko

(Hybrid) - Noida, India

Associate Software Engineer (Full-time)

April 2023 - Present

- **Integrated Generative AI** to automate text and email content generation and summarize chat conversations, reducing manual effort by 60% and improving user productivity.
- Reduced response times by 30–40% in high-traffic modules by **optimizing backend logic, refining SQL queries, and applying caching.**
- Resolved 100+ **security vulnerabilities** reported by **Snyk**, enhancing application security and ensuring compliance with internal security standards.
- Developed and maintained backend **RESTful API services** and scheduled **Cron jobs** to automate database cleanup and recurring business tasks, reducing manual effort by 40% and enhancing operational efficiency.
- Implemented new features and fixed critical bugs, improving system reliability and reducing user-reported issues by 20%.
- Integrated SaaS-based CRM application with 5+ Daxko products, ensuring seamless data flow and increasing customer reach by 25%.
- Contributed throughout the **SDLC** and collaborated effectively with cross-functional teams in the US and India—including **QA, Product Management, and UX/UI**—to deliver high-quality features on time.
- Participated in **code reviews** to ensure **code quality**, maintainability, readability, and adherence to coding standards, promoted best practices and effective team collaboration.
- Demonstrated leadership by **mentoring interns**, providing guidance that enhanced their technical skills and overall performance, resulting in a 15% increase in team productivity.

PROJECTS

- **E-Health Care Web Application**
 - Built a full-stack web application enabling patients to book online appointments and connect with nearby doctors based on healthcare needs.
 - Implement end-to-end CRUD functionality and a responsive user interface to streamline data management and enhance user experience.
 - **Technologies:** Java, Spring Boot, MySQL, HTML, CSS & jQuery
- **Enhanced Playfair Cipher Security Using Extended RSA**
 - Developed a Java-based research project to improve Playfair cipher security by integrating extended RSA.
 - Expanded Playfair cipher matrix from 5x5 to 16x16.
 - Implemented multi-prime RSA encryption, enhancing key security by 40% compared to standard RSA algorithms.

EDUCATION

GLA University

Mathura, India

Bachelor of Technology in Computer Science and Engineering

July 2019 - June 2023

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Computer Networks, Distributed Systems, Database Systems, Cryptography, Artificial Intelligence, Machine Learning

AWARDS & CERTIFICATIONS

- **Daxko Lab Days 2024 Winner:** Secured first place in Daxko's company-wide innovation Codefest, competing among 100+ teams.
- **Agile Development Practices Certification:** Completed *Agile Development Practices* course through LinkedIn Learning.
